

Daniel Espinosa

With several major Hollywood productions under his belt, Daniel Espinosa has time and time again showcased an ability to excel no matter what the genre, effortlessly moving between drama and thriller to action and sci-fi.

Espinosa's breakthrough as a director came in 2010, when *Easy Money*, one of the most successful Swedish films ever made, premiered and instantly became a box office hit. Going on to receive massive international acclaim, the film paved the way for Espinosa's first American feature film, *Safe House* (2012), starring Denzel Washington and Ryan Reynolds. It too was a great success, topping the U.S. box office for two weeks and grossing over \$200 million worldwide, a record among Swedish directors.
